PROFILE

Passionate Web Developer with 1.4 years of expertise in WordPress and modern web technologies, delivering efficient, scalable, and visually appealing websites.

WORK EXPERIENCE (1.4 YEARS)

Zethic Technologies - Bangalore, Karnataka SEP 2024 - PRESENT
Web Developer- Fulltime paid intern(1 year)

- I have implemented **five additional WordPress** websites (converted from Figma designs) using Elementor, Elementor Pro, ACF, custom code, and multiple required plugins. Additionally, I used custom HTML and CSS to customize the design, add animations, and incorporate other decorative features.
- Created websites that are mobile-friendly and fully responsive, including optimized layouts for mobile and tablet views, using media queries to customize the design.
- Created an E-commerce website using custom code (PHP, CSS) along with multiple required plugins, shortcodes, and JavaScript.
- Additionally, I created SEO-friendly websites and configured SEO settings for better search engine rankings using plugins such as Rank Math.
- Web Development :** Develop and maintain front-end components and user interfaces for web applications using HTML, CSS, and JavaScript for functionality, along with frameworks such as Bootstrap for responsiveness, and media queries for design customization.

Maaya Software Solutins - Namakkal MARCH -JUNE 2024
Wordpress Developer- (4 Month)

- Wordpress **and Web Development :** i have implemented 3 Wordpress websites and 1 web development by using elementor and multiple required plugins and html, Css, Bootstrap and used Js for Functionality

PROJECT

WORDPRESS DEVELOPMENT

Developed the project using Elementor and Elementor Pro, incorporating custom HTML and CSS for design customization, animations, and ensuring full responsiveness across devices.

Tools:

Elementor, Elementor Pro, HTML, CSS, JavaScript, Responsive Design Techniques, Media Queries

- Static Website - <https://dealwise.zethic.xyz>
- Ecommerce - <https://puratchibharathipathipagam.com>
- Dynamic Website - <https://akoi.in>
- Dynamic Website - <https://poultrytect.org>

WEB DEVELOPMENT

Designed and developed websites using HTML, CSS, and JavaScript, implementing interactive features, custom styles, and responsive layouts for optimal user experience across devices.

Tools:

HTML, CSS, JavaScript, Responsive Design, Media Queries

- Static Website - <https://krazeal.com>

REACT PROJECT

Currently enhancing skills in React.js by building dynamic, component-based web applications and exploring state management, hooks, and API integration.

PORTFOLIO WEBSITE

Created a personal portfolio using HTML, CSS, JavaScript, Bootstrap, and React.js with interactive UI components via useState. Designed responsive layouts and reusable components to showcase projects, skills, and contact details.

Tools & Technologies:

HTML, CSS, JavaScript, Bootstrap, React.js, useState Hook, VS Code, GitHub.
